SONS OF KALDOR

PART ONE

by JASON WELCH

Over o n KALDOR

ADJUDICATOR RELL is in a locker room putting on his blood red uniform ,silver moon boots shoulder pads ,flowing floor length white cape , after his tour of GALDA PRIME.

Commissioner miles walks into the locker room.while h is team are kitted out for tonight's performance .

JAMES SWIFT How was your time on GALDA PRIME?

STENTON RELL Gave a lecture to some of the cubs.

ADJUDICTOR REGGIE I don't agree with letting criminals off the hook .

RELL I made a deal with VICTOR BRIGHT and MAX VILMIO that they'd get a free pardon for all their crimes .

COMMISSIONER MILES You know the type REGGIE .

STENTON RELL Typical recidivists who'd stop at nothing for an easy profit

JAMES SWIFT ` W e have a new Earth Ambassador who arrived o n the BLACK PRINCE submarine ,from a newly discovered planet on the other side of the galaxy named earth.

COMMISSIONER MILES Well done RELL, try to remember what happened the last time you told a few friends about

Nimbus 3 and the news agencies got hold of it .
STENTON RELL Bunch of nosey parkers, I was just celebrating with a few friends after rescuing the humans of Nimbus 3 and I'm accused of starting a war of the Empires COMMISSIONER MILES I've got a special job for you .
STENTON RELL I thought you might.
COMMISSIONER MILES W ell come with me JAMES .
They take a travel tube over the skyline of KALDOR through a perspex tube and into a dayglow green lattice dome,then in four directions to the basement.
RELL follows MILES into of the blue and pink lift and along a a gray laminated concrete maintenance tunel past utility pipes , then through a bulkhead door.
This chamber has a wide central walkway with alcove silos containing discarded early model V-O-C ROBOTS.
I've decided to reactivate a hunter V-O-C robot.
They walk past every silo till they get to the last alcove where HUNTER ROBOT K1 is standing
STENTON RELL The Hunter robot program was abandoned when the SONS OF KALDOR complained about them .
COMMISSIONER MILES This is the last of the hunter robots with the power to apprehend any citizen..
K1 is wearing a light fiber costume and unlike the other VOC he has no faceplate with a more humanic face with blue skin and yellow hair .

commissioner miles A ctivate him .
STENTON RELL W elcome back K1 .
K1 STATUS.
STENTON RELL Don't worry k1 you'll get the best

reprogramming from technician CASTAN LAGO . .
K1 PLENTY OF SUBROUTINES.
STENTON RELL YES I KNEW YOU'D LOVE PLENTY OF THEM .
k1 RECOMMISSIONED FOR A NEW ASSIGNMENT K1.
STENTON RELL ` I bet you thought you'd retired And we forgotten about you
A smile spreads over the face of HUNTER ROBOT K1 .
COMMISSIONER MILES Are your men ready for dimension?
STENTON RELL T onight all my offices are stationed and key places and the audience are arriving .
J ust then commissioner MILES gets a call on his risk communicator from COMPANY CENTRAL .A synthesized voice says :-
[President Vanessa Bellamy and her party have arrived from GALDA PRIME]
COMMISSIONER MILES B ring them straight to my office >
They take a travel tube from the garage that whisks them in four directions out of the police Precinct block through a clear plastic resin tube and into company central .
STENTON RELL K1 may be replacing the SUPERVOC and will work closely with your adjudicators..
COMMISSIONER MILES We've issued a statement that the hunter robot series will replace standard voc to stop citizens using false ID Travel throughout KALDOR and GALACTIC FEDERAQTION, for illegal purposes.
STENTON RELL Who can afford to be left wing when they want a cup of coffee ,I'll tell my platoon, but I'm doing you a favor..
COMMISSIONER MILES He'll be fitted with infrared sensors and the biomorphic signatures of every citizen .
STENTON RELLll Effectively he'll know them better than they know themselves isn't that so K1 .
K1 That's right commander I was just starting a relationship with some of the market traders when I was decommissioned .
STENTON RELL I'll Issue them with these security codes and give Hunter robot K1 his nes subroutines
A smile spreads over the face of HUNTER ROBOT K1
COMMISSIONER MILES if they are in touch with the SONS OF KALDOR I want to find out about it

STENTON RELL When the live show of the PHAROS PROJECT has finished BRIGHT and VILMIO will be transported through the DIMENSION arcs and I want you to bring them straight to me .
STENTON RELL You don't want me to rough them up a bit, chuck them in holding cell
COMMISSIONER MILES Knowing BRIGHT and VILMIO they'll go back to their old ways and that's when K1 will track them and all their conspirators .

The travel tube deposits them outside Landerchild's office and they use the wall mounted INTERCOM to gain entry .
K1 takes his station by the door
The plush office is decorated in mauve pastel shades with White's resin tables and they take this seat we're V-O-C ROBOTS serve mineral water and soma .
President Vanessa Bellamy and her party arrives with general Williams and Peter Elgin of global chemicals
PRESIDENT VENESSA BELLAMY We've just come from an 11th hour meeting with the high council you know Peter global chemicals .
PETER ELGIN I'm here to get my survey team that I left with you to construct a perpetual motion machine .
STENTON RELL A WHAT?
PETER ELGIN A MOTOR CAR ENGINE .
PRESIDENT VANESSA BELLAMY Let's get to the KALDOR ARENA.
STENTON RELL I've reserved the Royal balcony and we can talk business later .
They assemble at LANDERCHILDS access door and alight a travel

tube that whisks them in four directions over the skyline to the KALDOR Arena depositing them at the perimeter of the upper circle .
T hey follow LANDERCHILD towards the stage area and then take the door to the left up to the Royal b alcony just as a troop of KALDOR POLICE arrive to take their station around the stage .
The theater dancers from Mahoney's traveling circus start the show with a musical number and then the host of the show Roger Reese and Helen Sharp takes center Stage right next to the dimension arcs .
PETER ELGIN I'm very keen to Forge links with the Galactic Federation and I was thinking of getting those rolling roads which were taken to NIMBUS 111 when you next go to inspect .
LANDERCHILD T echnically they're yours but I'm sure we can supply you with some replacement
ELGIN Will those conveyor belts are on expensive side and even though I'm chairman of the board I must get them back .B etween you me in the gate posts Earth is so primitive it's still run with by accountants
PRESIDENT VANESSA BELLAMY Leave it with me the show's about to start so pipe down .
The Dancers from the MAHONEY'S traveling circus finish their RHYTHMIC ACROBATICS act and the two hosts of dimension come on stage standing next to the twin 8 foot high arcs .
ROGER REECE W elcome to all citizens of the Galactic Federation .
HELEN SHARP We've decided to send three teams through the dimension arc to colonize three more M-class planets .
ROGER REECE Yes that's right Roger PHAROS PROBES have been sent to the farthest regions of the galaxy .
HELEN SHARP Each containing one The V-O-C robot to construct a DIMENSION ARC and basic living accommodation ready for our three teams to colonize .
ROGER REECE yes and what planets we've got for you .
HELEN SHARP HYPERION is 40% oxygen, 40% carbons dioxide and 20% helium .
ROGER REECE Near the center of the Galaxy GAMMA has 30% oxygen, 40% carbon dioxide and 30% helium .
From the back of the auditorium two teams of eight walks through the capacity crowd and step up onto the stage to the dimension Gate .
HELEN SHARP So how do you feel about colonizing

HYPERION SALLY?
VICTOR BLAKE I've been eating salad for years so I'm ready to go .
SALLY RIGHT Absolutely delighted that the high oxygen atmosphere will compensate for my carnivorous tendencies .
VICTOR BLAKE We've got ration packs with meat substitutes so we'll make the best of it .
HELEN SHARP T he two teams have been training in oxygen tents at the outskirts of KALDOR.
ROGER REECE On a high fiber diet of salad and green vegetables .
VICTOR BLAKE Which is all We're going to have when there .
ROGER REECE So Helen if you can just start that dimension Gate .
SALLY RIGHT goes to the control console and activates the 8ft high twin arcs which rotate 40 degrees creating a rip in the fabric spacetime.
A spotlight picks out the surface of the dimension arc which ripples like the surface of Mercury pool .
ROGER REECE A ll the viewers are the galactic Federation wish you luck .
HELEN SHARP And the more prefabricated homes you can make .
ROGER REECE And cultivate land .
HELEN SHARP The more we'll join you .
One team goes through DIMENSION GATE.
ROGER REECE We found another M-class planet on the Western spiral arm of the Milky Way galaxy ready for cultivation .
ROGER REECE this planet we call META .
HELEN SHARP it's a similar size to our own and 50% oxygen 30% carbon dioxide and 20% helium .
ROGER REECE And here is the lucky team which is going to cultivate it .
ARRON SPELLING And miss my Sunday lunch .
ROGER REECE W ell you've heard it here folks the team for meta go through the dimension Gate .
HELEN SHARP And remember THE PHAROS PROJECT is seeking M-Class planets.
ON a large monitor screen above the stage the galactic Federation screen saver is replaced by a cultivated Market Garden which dwarf

prefabricated homes n e stled next to it as the team arrive on META .
ROGER REECE Again if you want to follow the colonization of these new planets , we'll be sending out more PHAROS PROBES with a single V-O-C ROBOT to find M class planets with soft centers and pave the way for COLONISATION
HELEN SHARP Tune again if you want to follow the colonization of these new planets.
Dancers from the MAHONEY'S traveling circus back on stage for the climax of the show and the twin 8 foot arcs rotate 40 degrees and Two uniform men emerge from the Mercury pool at its Centre.
STENTON RELL gets a call on his risk communicator .
LANDERCHILD E scort BRIGHT and VILMIO to the precinct for debriefing should be coming through the dimension Gate right now.
ROGER REECE And remember bachelors are only bachelors until you make them a cup of soup and agree to marry them. This is Roger Reese tuning again for the next episode of dimension .
.STENTON RELL Very well done on completing your mission for us .
The KALDOR police fan out and take their stations at main exits, then start taking tickets from audience leaving there maroon velvet seats in thew upper circle .
ADJUDICATOR STEVENS B e at peace with the world .
ADJUDICATOR GINGER T hanks for coming .
ADJUDICATOR AVON You can take that chewing gum out of your mouth when you speak to an officer.
A young man with a caftan and flared trousers hands back his ticket saying " old pardon me for living officer"
ADJUDICATOR STEVENS Are you see that Chumley typical of the sons of KALDOR always give you their lip .
ADJUDICATOR AVON Yeah I saw that governor and their hair is too long .
BRIGHT and VILMIO are escorted off stage by STENTON RELL just as the Royal party are leaving the royal box with president Vanessa Bellamy .
VICTOR BRIGHT Did you know that we had to escape from the earth ambassador .Fella by the name of OLIVER MOSS .
MAX VILMIO And hire a boat when we got to the Gulf of Mexico to take us to the Pharaoh Islands just to get this research data.

VICTOR BRIGHT A nd then break into a complex guarded by military .
STENTON RELL Your efforts will not go unrewarded .
They Walk to the perimeter of the theater and alight a travel tube that whisks them in four directions ,through a fluorescent green domed lattice into a perspex tube over the skyline of KALDOR CITY .
I nto the open cityscape through a clear perspex tube straight into the precinct house of the KALDOR POLICE.
They cross the blue Axminster carpet of reception and straight into an interview room .
LANDERCHILD Just a quick interview and then we'll issue you with a new ID CODE and you can go.
MAX VILMIO So all the charges have been dropped against me and I'm free to go.
STENTON RELL Y ou've a full pardon.
COMMISSIONER MILES E specially as you achieve the impossible and made it all the way to the Pharaoh islands.
VICTOR BRIGHT MILLIWAYS who perfected the HANS ZAROV biomorphic transition system .
MAX VILMIO We Infiltrated millways and while I kept their managers busy Victor found PROFESSOR HANS ZAROV .
MAX VILMIO And just as we got in there I was asked to give a sperm sample .
STENTON RELL Well I'm sure we'll enjoy hearing your full report .
MAX VILMIO I'm keen to meet my family first master so if i may i'll take my leave
LANDERCHILD Y es good luck,
OUTSIDE THE OFFICE ADJUDICATOR REGGIE ACTIVATES HUNTER ROBOT K1.
